

Vinyl Application Instructions

Thank you for your purchase from Checkers Custom Signs. Prior to installing your decals, the surface that you are applying the decals to must be clean, dry and free of grease, silicone and any contaminants that may affect the adhesive that bonds the decal to the surface in which the decal is applied.

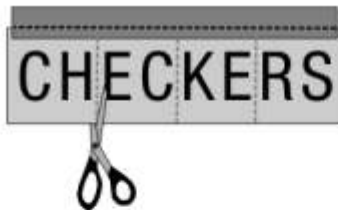

These instructions are available for download from our website www.CheckersCustom.com/instructions.html

1. Align decals as desired and secure with blue, removable painters tape.

2. Apply additional tape "hinge" to decals and cut between letters being careful not to cut them.

3. Pull up on decal, until you reach the hinge, then separate from backing paper from decal ensuring that the letters stay adhered to transfer paper.

4. While holding decal away from surface with hand, start at the hinge slowly apply pressure with squeegee, using overlapping strokes until the decal is applied. Repeat process as necessary.

5. Slowly remove application tape pulling downward at a sharp angle to the surface.

The item(s) noted here is/are provided "as is". Checkers Custom Signs does not warrant the product or installation, including warranties of merchantability or fitness for a particular purpose. Buyer is solely responsible for proper use and installation of this product.
